Zebra SOUNDSET
by Nick Moritz

62 strings patches
for u-he Zebra v2.5 (or greater)

Package contains:

- Soundset folder **STRINGER.**
- **MP3 Demo** folder.
- **MIDI** folder (with midi notes from "Abstract", "Bright" and "Warm" demos).
- **MANUAL** pdf file (this document).
- Stringer **Mini-ART** file.

Installation

In order to install the patches you must copy the folder and all sub-folders of **STRINGER/** into the Zebra presets folder. This destination folder's location depends upon your operating system:

Windows: **(Zebra installation location)/Zebra2.data/Presets/Zebra2/**
MacOS X: **MacHD/Library/Audio/Presets/u-he/Zebra2/**

After you have installed the presets they will show up in Zebra in the "Patches" pane on the left hand side, under the "Local" group. If you copied the presets while Zebra is open you will need to re-load Zebra to locate the soundset.

Description

The Zebra **STRINGER** soundset contains 62 synthesized strings patches for Zebra 2.5 or greater. Every preset makes use of the modulation wheel for "Vibrato" effect and at least one XY performance pad for morphing sound. A great deal of the presets also make use of keyboard velocity to enhance the expressiveness of the sound.

All patches sorted for 3 category (folders): **ABSTRACT**, **BRIGHT** and **WARM** to make your search more easy and comfy.

MP3 & MIDI Demo

In all demos were used sounds from STRINGER soundset only. All demos have no external effects added to them except for soft limiting on the master channel to prevent clipping.

All midi files in the package are presented only for demonstration purposes and prohibited to be used commercially.

PATCH-List:

Abstract / 22	Bright / 20	Warm / 20
STRS - Duophonics	STRS - Ambrosia	STRS - Bell String
STRS - Flangus Pluck	STRS - Cathedral	STRS - Blow Fish
